Fall 2017

Project Presentation Day Assignments

You are required to attend all presentation days.
Each presentation day missed will produce a deduction of 10 points.

Each presentation is allotted a **maximum of 12 minutes**. So, create your presentation and make a couple of dry runs to make sure you stay within this limit. I'll be timing each presentation to make sure no one goes over by more than about 30 seconds.

If you need/prefer to switch your presentation day, find another group (talk to directly; make a post on Piazza) that agrees to the switch and send me an email (CC both sets of team members) to let me know and I'll update the schedule.
